

RE-OPENING PLAN FOR THE GRILL ROOM AT CLEARBROOK

Welcome Back! Listed below are the leaps we've made to keep you as safe as possible. BUT FIRST ... consider this:

“Covid-19 is extremely contagious through RESPIRATORY DROPLETS / ORAL SPRAY... by TALKING, SNEEZING, and COUGHING, which WILL PROBABLY occur here during your visit. After all, it's allergy season! Uncontained ORAL SPRAY cannot be controlled by those who work here. Staff are wearing masks to minimize it, however, guests eating and drinking can't wear masks.

“Prevention of Covid-19 spread CANNOT be guaranteed. If you have underlying health conditions, or are at high risk of infection and cannot tolerate this possibility, we suggest NOT entering. Sorry, but true. If you do come in and need to cough or sneeze, before you do, quickly cover your mouth with your napkin.

“IF you enter... we're happy to serve you again and again, but at your own risk. Masks are required unless seated.

If you cannot enter... we can place a TAKE-AWAY ORDER for you while you wait in your car. Also, we are licensed for drinks on our entire property (but not drive-away).”
